THE Presbyterian General Assembly, (Old School,) soon to meet at St. Louis, will be solicited to prepare the way for reunion with the Southern branch, by rescinding the conditions laid down last year at the Pittsburgh meeting.

THE London *Economist* says, "It must not be forgotten that in rebuilding the Democratic party upon the basis of a Southern alliance, the President strikes a blow at public credit."

THE President has directed the removal of Mr. John H. Taggart, Collector of Internal Revenue for the first district, and the appointment of Mr. A. A. Sloanaker in his place.

THE Memphis *Appeal* declares that State sovereignty, in the absolute sense, is a "dead thing of the irrevocable past, for which there is no resurrection." Getting sensible.

Surprising.

It is actually surprising how soon our people have learned to prize that invaluable article known as Coe's Dyspepsia Cure. It certainly acts like magic, for it will cure the very worst cases of dyspepsia and enable the patient, who has lived for years on Graham bread and the plainest food, to eat anything he chooses without fear of distress. It is considered the most valuable medicine known for all diseases of he stomach and bowels. The sole agent for Pittsburgh, wholesale and retail, is Joseph Fleming, Druggist, No. 84 Market street.

Take Time by the Forelock.

The miasma which generates epidemic fevers is now rising in clouds under the blazing beams of the dog-day sun. Every living body, as well as refuse animal and vegetable matter, emits unwholesome vapors, and in crowded cities and the dense assemblages which business and pleasure call together, the elements of disease are evolved. The pressure upon every vital organ is never so great as in the second and third months of summer, and common sense teaches us that these organs require to be reinforced to meet it.

We hold our lives, so to speak, on a *repairing lease*, and this is the season when the process of dilapidation is most rapid and repairs are most required. Therefore build up, prop and sustain the powers of nature with that mighty vegetable recuperant, Hostetter's Bitters. He who takes it may be said to clothe himself in sanitary mail, against which epidemic disease will hurl its poisoned shafts in vain. This is no gratuitous assertion, but a great *medical fact*, attested by twelve years' experience in every climate of the habitable globe. Extremes of temperature always disturb the functions of the stomach, the bowels, the liver and the skin. It is through these that the most dangerous maladies assail us. Tone them in advance with Hostetter's Bitters, and defy heat and malaria.

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, April 17, 1866.

SENATE.

Mr. Wilson, introduced a joint resolution to provide for the erection of buildings at Schuylkill Arsenal, near Philadelphia, which appropriates $16,000 for the erection of storehouses for the storage of Government property. Referred to the Military Committee.

Mr. Wilson introduced a bill to prevent and punish the manufacture and use of false, forged or counterfeit brands, stamps or stencils. The penalty is not less than $5,000 fine and five years imprisonment. Referred to the Committee on Military Affairs.

Mr. Grimes introduced a bill to define the number and regulate the appointment of officers in the navy, which was referred to the the Committee on Naval Affairs. It provides for the following line officers of the navy in each grade. One Vice Admiral, 2 Rear Admirals, 25 Commodores, 50 Captains, 9 Commanders, 108 Lieutenants and 160 Ensigns; and in other grades the number now allowed by law, provided that the increase in the grades below that of Rear Admiral, and above that of Lieutenant, shall be selected from officers who have been efficient and faithful during the war, and provided also that promotions shall be made from the grade next below, and that the number of Rear Admirals, active and retired, shall be limited to twenty-one. Provision is made for filling vacancies in the offices of Rear Admiral, and of line officers of the Marine corps below that of Colonel commandant by selection and promotion by seniority alternately, and to say if the vacancies first occurring be filled by selection, the next must be filled by seniority, and so on, provided, that no selection shall be made of any officer having more than one-third of the officers of his grade senior to him on the register; and provided further, that such selections shall be made from officers possessing the highest characters and professional qualifications.

The Chair appointed Messrs. Wilson, Sherman, and Guthrie, a Committee of Conference on the subject of the resolution, prohibiting the sale of liquor in the Capitol buildings, the senate having refused to agree to a House amendment of that, resolution.

Mr. Grimes rose to a personal explanation. He observed by the newspapers that after he left the senate Chamber yesterday, his colleague, Mr. McDougall, made a lengthy speech in which he stated some grievances that he protested to have again him, Mr. Grimes, and brought to his mind one fact which he desired to put on record, and for that purpose he rose in the City of California. State Convention of 1852. It was more than probable he would have supported Mr. McDougall for Congress, but that his chief advocate and supporter was the solon (Governor Foote) of Smith, of Virginia, then in California, for the purpose of giving that State to the South as an outlet for its future confederacy. The man who was put in nomination by Smith could not receive his (Mr. Grimes) support under such circumstances. Mr. McDougall was then nominated, and afterwards in the House of Representatives voted for the celebrated Kansas-Nebraska act, which was but the beginning of the end which we have lately seen.

Mr. Anthony offered a resolution to print 4,000 copies of the report of the Committee on Patents.

Mr. Anthony, pending the consideration of the above, said that the public and senate had noticed under the resolution of yesterday the cost of public printing ordered for the use of Congress. He had seen it stated in a widely circulated newspaper that the public documents alone cost two millions during the year. This was a mistake. The entire cost for public printing during the past year was $1,750,000.

The resolution was adopted.

Mr. Sprague introduced a joint resolution directing the Secretary of War to change the names of forts called after prominent rebels. Referred to the Committee on Military Affairs.

Mr. Wilson called up the motion to reconsider the vote on the admission of Colorado.

Messrs Johnson and Grimes called for the yeas and nays.

Mr. Sumner hoped the vote would not be reconsidered. The question had been fully discussed when it was last under discussion. It had been shown that the Territory of Colorado had a population enough for a State, and that the Constitution of Colorado contained the word "white." The great question now before the country was on striking the word "white" out of the Constitution of the late rebel States. With what consistency could the senate admit Colorado with that distinction while it insisted on the removal of such distinction in the rebel States?

The morning hour expired at this point, and the senate took up the House bill in relation to the habeas corpus.

On motion of Mr. Nye, the above named bill was postponed for the purpose of taking up the bill for the relief of certain naval contractors, pending the consideration of which the Senate adjourned.

HOUSE.

Mr. Elliot, from the Committee on Commerce, reported a bill making appropriations for the repair, preservation and completion of certain public works, heretofore commenced under the authority of law, which was read twice and referred to the Committee of the Whole on the state of the Union. The bill appropriates for the examination and survey of works of improvement, for which appropriations have heretofore been made, and concerning which no information is now in possession of the War Department. The following are the amounts: On the Atlantic coast, $20,000; on the Pacific coast, $25,000, and on the Northwestern Lakes, $100,000. It also makes appropriation for extending breakwaters and improving the navigation of rivers and harbors.

Mr. Shanklin asked to be excused from further service on the Committee for the District of Columbia, thinking that under the circumstances, sitting in the rebel Convention yesterday of Mr. Ingersoll, chairman of that Committee, he could no longer hold the position with profit to the country or honor to himself.

Mr. Shanklin was excused.

The House then proceeded, as the regular order of business in the morning hour, to the call of the Committee for reports.

A number of pension bills were reported from the Committee on Invalid Pensions.

Mr. Perham, from that Committee, reported back, with a substitute, a bill increasing the salary of the Commissioners of Pensions to $3,000, and of the Chief Clerk of the Pension Office to $2,500. The second section of the bill authorizes the Secretary of the Interior to appoint from the fourth class clerks in the Pension Office, one Chief Examiner of army invalid pensions; one Chief Examiner of army pension claims of widows, mothers and orphans, and one Chief Examiner of navy pension claims, each of them to have $2,000 a year more than their present salaries.

Mr. Perham moved to amend the substitute by striking out the word "navy."

Pending the debate on the bill, the morning hour expired, and the bill went over until to-morrow.

The House then proceeded to the consideration of the bill to reorganize and establish the army of the United States, the pending question being on the motion of Mr. Davis to amend the fourth section by striking out that part relative to the Veteran Reserve Corps.

The motion to strike out was lost by yeas, 30, nays, 84.

The House then proceeded to the consideration of the 5th section, which provides for the mode of officering the infantry regiments.

A number of amendments were offered to it, and some were adopted.

Pending the consideration of the bill the House adjourned.

From South America.

NEW YORK, April 17.—Reports from South America state that the fighting on the Paraguay river had been renewed on the 21st of February, the Brazilian Admiral Tamandare having reached Corrientes on the 21st of February, and Gen. LATEST FENIAN REPORTS.

Seizure of a Schooner Laden with Arms.

FIFTEEN FENIAN VESSELS ARMING.

Fenian Meeting at Calais, Me.

EXCITEMENT AT ST. ANDREWS.

EASTPORT, ME., April 17.—A schooner loaded with arms, consigned to B. Doran Killian, was seized on her arrival at this port this morning, but after several hours' detention, and an investigation by the Custom House officers she was released.

Instructions have been received by the authorities from Washington to strictly enforce the neutrality laws.

Mr. Killian addressed a meeting at Calais last night at which he stated that the Fenians had not come to invade the province. His speech has excited much apprehension, but the people feel confident in the integrity of the Fenian movements here.

A large delegation of Fenians arrived by the boat to-day.

MONCTON, April 17.—A Government detective who has been in communication on the American side of Lakes Erie and Michigan, reports that the Fenians have nearly ready for armament on these lakes fifteen vessels, besides schooners and barges for boarding. With field artillery, equipments, stores, &c. He reports large shipments of arms to frontier points, and unusual activity in Fenian circles along the American frontier.

QUEBEC, April 27.—Three hundred Regulars are expected at St. Stephens to-morrow, and a similar number at St. Andrews.

A large Fenian meeting was held at St. Croix Hall last evening, and was addressed by Messrs. Killian and Sweeney. The latter spoke for an hour on Ireland's wrong, but declared in the efforts of the brotherhood to free Ireland they would respect the laws of the United States. He said the Americans owed the Irish a debt of gratitude for their assistance during the late struggle, and now was their time to assist Ireland in her hour of need. They intended to do so by sending arms and by furnishing arms or the means to buy them. The Brotherhood now embraced a million men. It was the true policy of the United States to prevent the establishment of a monarchy north of them, as was foreshadowed in the British scheme of confederation. If those opposed to the measure in the Provinces were really opposed to it, the Fenians were ready to assist them, and in doing so would be carrying out what was the true American policy. If the Americans wished to remove the Irish here, they knew, how much more careful ought they to be that there is not one established at Ottawa. He declared it to be the intention of the Fenians to hold the Canadian Provinces on the border until the confederation question was settled. Every difficulty that arose under the British flag gave hope to an Irish success. Any one making speeches which amounted to nothing, both speakers emphatically stated that they did not intend to invade the provinces; but in conversation with a gentleman from Halifax, with whom he sojourned, Killian refused to answer the question when they were seeking to arm a force on the frontiers.

NEW YORK, April 17.—A dispatch from St. Andrews, N. B., to the *Herald* says there is a good deal of excitement at this point. Volunteers are flocking from all quarters. Her Majesty's ship Duncan is expected here daily. Lieutenant Governor and suite are expected by the train from Fredericton this evening. The Governor comes to meet one regiment of the 17th, and two companies of artillery and a company of engineers, the at this port from Halifax to-morrow morning. Business here is almost entirely suspended.

The Nova Scotia House of Assembly adjourned yesterday for one month. The incoming government is to be composed of Messrs. Wilmot, Fisher, Piley, Mitchell, Willis-ton and Barnard. The appointments of three of these officer is expected in a few days. It is said positively that the new government will suspend the writ of habeas corpus.

TORONTO, C. W., April 17.—The examination at custom house from Fenian prisoners with closed doors. Several other arrests of Fenians are reported here to-day. The police have gained information of suspected parties, and the arrest of all implicated will probably soon take place.

EASTPORT, Me., April 17.—Much of the news sent from here in special telegrams is false. There has been no fight at Calais, and there is no Fenian gathering there. Everything is quiet, and perfectly quiet, confining themselves to speech making and unobtrusive proclamations.

LATEST MEXICAN ADVICES.

Matamoras Strongly Fortified.

REPORTED CAPTURE OF WAGON TRAINS.

NEW ORLEANS, April 17.—The Matamoras *Ranchero* of the 13th, says the Imperial forces under Ivaningros, arrived at Chero, Escardido, on Sunday last, twenty-two leagues from Matamoras. A short distance beyond that point, Conales endeavored to dispute the passage of the Imperialists, but Lopez's regiments repulsed him, killing twenty-two and a large number were wounded; two hundred wagons accompanying Ivaningros' expedition, which he provided with every requisite for a thorough and active campaign.

A specie train leaves Monterey soon, under escorts for Matamoras.

Gen. Mejia is now with Janeuzeross arranging plans for opening the campaign against the Liberals. Fo fears are entertained for Matamoras. The city is impregnable against any attack.

Victoria, Saltillo, Monterey and Chihuahua are fortified. Escobado, Canoles and Corlana appear to be operating independent of each other. Canoles is up the River Cortinas is between Matamoras and Victoria, and Escobado withdrew in the direction of Luzores.

Brownsville advices say it is reported there that the Liberals captured a wagon train between Carrora and Monterey with $200,000, killed and captured about two hundred French soldiers. The train contained about one hundred and fifty wagons, and left Monterey on the 1st of April bound for Matamoras, guarded by 1,400 Imperialists under Janeuzeross.

Trevanare and Canoles with about twenty four hundred Liberals, and Nanojos with Imperial cavalry, left Carmargo on the 3d to intercept the train. Mejia had left Matamoras to meet an approaching small column. General Olivera is commanding at Matamoras during Mejia's absence, and is amply provided for any attack.

The *Courier* says: A removed train from Monterey has already been attacked and captured twelve miles above Matamoras; that Mejia had been defeated; that Matamoras will be attacked to-day or to-night; and that Bagdad has been taken, but none of these stories are reliable.

The Matamoras *Ranchero* speaks encouragingly of General Gylfis' administration on the border.

Large numbers of emigrants are constantly arriving in matamoras from the states.

Liverpool Shipping

NEW YORK, April 17.—From Liverpool during March there sailed to the United States thirty ships, with 30,484 cabin and 10,845 steerage passengers. Of this 2,778 were English, 2,462 Scotch, 5,552 Irish and 2,192 foreigners. The total for the quarter was 24,227, an increase of 10,301. In order to meet the contingencies of the emigration from the Northern cities, then in Philadelphia, Washington, Boston, where he had great success, painting eighty portraits in six months, and, in our western Massachusetts town of Springfield, spring field, Washington, his power and his fame extended. In 1825 he went to England, and spent three years.

Returning, he passed some time in Boston, and then established his home in Springfield.

Mr. Harding kept, through all his life and its varied associations, a simple, unaffected nature. Charming of his old age. Nothing, alike, through simplicity and sympathy. He touched all pleasantly; there were no airs, no manners, no vain pretence in him or about him. He was himself, and he was the same, supposed it, in any presence. His wife died many years ago; since he has made home with his children, chiefly with his eldest daughter, Mrs. Jirah Bing, of this city. Other daughters are married to John L. Krum, Esq., of St. Louis, and to Rev. William D. White, of Keene, New Hampshire, and his sons are, in active life, in Michigan, Missouri, Alabama. Springfield knew him longest and loved him best, and she is proud that, since death must come to him, his ashes are to repose in her bosom.

Amusements

PITTSBURGH THEATER.—Mr. Edwin Adams appeared last evening as "Hamlet," in which he was well supported by the company. Miss Minnie Monk, as Ophelia, did passably well, but scarcely manifested sufficient feeling in the part. Mr. Wentworth made an excellent Laertes. Edward Mr. Adams' conception of Hamlet as the correct one, and it is one of his best characters. The protean scene was, as usual, a dull and spiritless affair, and it seems ridiculous to suppose that the "play" when produced in such a lame manner as it usually is, would "catch the conscience of the king." He will appear this evening in the sterling play of "The Marble Heart."

OPERA HOUSE.—Mr. Charles Dillon, who stands in the front rank of English tragedians, made his first appearance at the Opera House last night, as Virginius, a character in which we think he has few equals, if any. It is one of his leading personations. The papers of the English metropolis speak of his conceptions as original, striking and natural. To-night he appears as Richelieu. In the character of this character he is said to be without an equal. Dr. Dillon's personations combine good reading and superior acting, and there is a minuteness and depth in his rendition which will be long remembered. Then, he has a voice which, he says, "filled with vague enthusiasm—I could not say why. It never occurred to me that I could sing. I had no method, but I was fascinated, and got him to paint me and my wife." When their portraits were finished, he was highly delighted, and would sit for hours and admire them, and at length began to feel a strong desire to try the thing himself. This he did in an attempt at his wife's portrait, upon a board, with such colors as he used in painting his signs, and when he had made it like her, he became frantic with joy. It was like the discovery of a new sense, and his mind became almost entirely absorbed in this discovery. Then, when announce his effort a dead failure, but others praised it, and gave him orders, and he went on rapidly to fame and fortune."

In the character of this character he is said to be without an equal. Dr. Dillon's personations combine good reading and superior acting, and there is a minuteness and depth in his rendition which will be long remembered. Then, he has a voice which, he says, "filled with vague enthusiasm—I could not say why. It never occurred to me that I could sing. I had no method, but I was fascinated, and got him to paint me and my wife." When their portraits were finished, he was highly delighted, and would sit for hours and admire them, and at length began to feel a strong desire to try the thing himself. This he did in an attempt at his wife's portrait, upon a board, with such colors as he used in painting his signs, and when he had made it like her, he became frantic with joy. It was like the discovery of a new sense, and his mind became almost entirely absorbed in this discovery. Then, when announce his effort a dead failure, but others praised it, and gave him orders, and he went on rapidly to fame and fortune."

He painted in the Western cities, then in Philadelphia, Washington, Boston, where he had great success, painting eighty portraits in six months, and, in our western Massachusetts town of Springfield spring field, Washington, his power and his fame extended. In 1825 he went to England, and spent three years.

Returning, he passed some time in Boston, and then established his home in Springfield.

Mr. Harding kept, through all his life and its varied associations, a simple, unaffected nature. Charming of his old age. Nothing, alike, through simplicity and sympathy. He touched all pleasantly; there were no airs, no manners, no vain pretence in him or about him. He was himself, and he was the same, supposed it, in any presence. His wife died many years ago; since he has made home with his children, chiefly with his eldest daughter, Mrs. Jirah Bing, of this city. Other daughters are married to John L. Krum, Esq., of St. Louis, and to Rev. William D. White, of Keene, New Hampshire, and his sons are, in active life, in Michigan, Missouri, Alabama. Springfield knew him longest and loved him best, and she is proud that, since death must come to him, his ashes are to repose in her bosom.

The Late Accident—The Railroad Company Censured—The Employment of Watchmen.

The Coroner's jury in the case of the accident at the Anderson street crossing, Allegheny, on Sunday last, by which the engineer of a stock train lost his life, concluded their verdict last evening. The evidence adduced is quite lengthy, and our space will not admit of its publication. It all tends, however, to show a culpable neglect on the part of the company in not having watchmen employed at the crossings, and the jury in their verdict place the responsibility of the accident upon the company and recommend the placing of watchmen not only at this but at all the crossings of the road in Allegheny. The same precaution, we believe, would not be out of place in this city—those on Penn, Canal and Liberty streets. The finding of the jury is as follows:

"That the deceased, Robert Andrews, came to his death by being caught under the wheels of a stock train on the Pittsburgh, Ft. Wayne and Chicago Railroad, said train having been thrown from the track at the Anderson street crossing. We further place the entire responsibility of the accident upon the Company, owing to its culpable negligence in not having a watchman employed on Sunday at the said crossing of said road, and we further recommend the employment by the Company of a watchman for each crossing in the city, for every Sunday in the year."

Before Alderman Strain

This magistrate had a large run of business yesterday. A hearing was had in the morning in the case of Jacob Walter, charged with cruelty to a horse. The accused had hired a horse from Rosty Patterson & Co.'s livery stable, on Canal, and driving it to Verona, the leg of the animal was broken. Held to bail in the sum of five hundred dollars for his appearance at Court to answer.

John Hines has made an information for assault and battery against Wm. Douglas. The parties got into a quarrel yesterday morning in the Fourth ward, during which William received a blow from John, which had the effect of blacking his eye. Upon a hearing, William was held to bail for his appearance at Court.

Edith A. Morrow made complaint against Wm. A. Average for stopping her in the street. Ungallant William was arrested and held for a hearing.

Thomas Goggins appeared and preferred a charge of assault and battery against his brother James Goggins. The prosecutor alleges that some time since he left in the care of James a number of carpenter tools, the whole valued at about thirty-five dollars. When he went to reclaim them he discovered that the accused had disposed of them and appropriated the proceeds to his own use. The parties reside in the Eighth ward. James was arrested and held for a hearing.

Benjamin Harrington, a resident of Strawberry alley, appeared and made information against his son-in-law, John Parker, for assault. The complainant alleges that Peter had struck him, and threatened to cut his throat. The hopeful son was arrested and held for a hearing.

Martha McLaughlin preferred a charge of abandonment against her son-in-laws John Parker, for deserting his wife. She alleges that he has not contributed anything to support for about a year. A warrant was issued for Parker's arrest.

A New Passenger Railway Project.

In the proceedings of Allegheny Councils, at their meeting on Monday evening, incidental reference was made to a new project for the construction of a passenger railway from the corner of Liberty and Wood streets, by the Hand street bridge, and up Anderson street, to a cross street running parallel with ohio street, near Avery or Second streets, and thence along said street to the city limits, and to the upper end of Allegheny. The object being to reach Spring Garden Run, and give the population of that district railway facilities for reaching the city. We learn that the act incorporating this company, and cannot speak definitely as to the proposed route. It was stated, however, on the floor of Councils, that a charter had been obtained by reason of this fact, there was some opposition to granting the right to the Manchester Passenger Railway Company to extend a branch along Ohio street to the Point, and into the city like, with a view of making Duquesne borough the eastern terminus. The principle objection urged was, that the lines would run so near to each other that the distance of only one or two squares of each other, thus rendering it doubtful whether either would pay. The Councils, however, very properly decided that competition was the life of trade, and leaving the new project to take care of itself. The extension will probably be completed this season, and will afford much needed facilities for a large population.

District Court.

TUESDAY, April 17.—Before Judge Hampton.

John Chantler vs. Samuel Neeley. Verdict for plaintiff, $46. A. M. Brown for plaintiff. H. Geyer for defendant.

James H. Hewit and Robert Bamers vs. J. McCormick, H. Bume, B. D. Charles and J. Bume. This was an action of trespass to recover the loss of two hundred and fifty barrels of oil. The defendants owned the steamboat Niagara, the boilers of which exploded just as the boat was leaving the wharf on the 18th of September last. The plaintiffs were owners of a barge containing two hundred and fifty-three barrels of salt, and had contracted with the defendants to have the same delivered at the Point. The barge was sunk by the explosion and the salt destroyed. The action is brought to recover damages to the amount of $1,000. Verdict for two thousand dollars. John Barton, Esq., appears for the plaintiff, and D. Reed, Esq., for the defendant. The case is still on trial.

Newspaper Change.

The Rev. J. S. Easton, D. D., of sonora, Ohio, has purchased an interest in the *United Presbyterian*, of this city, and will from this time forward be associated with Kerr and Murdoch in its management.

We are glad to learn that the *United Presbyterian* is now in a very flourishing condition, and is one of the best conducted of the religious papers in the country. The former proprietors, Rev. D. R. Kerr, D. D., and J. J. Murdoch, Esq., made an excellent paper, and well deserved for their industry and industry have met with a very liberal patronage. In the person of Dr. Easton, who is a ripe scholar and a gentleman of experience, a valuable accession has been made to the editorial corps, to which the paper will be indebted for still more interesting. We are glad to see that in this week's issue the editors give no "uncertain sound" on the Civil Rights bill.

Tableaux of the Rebellion—The Rebellion Tableaux was well attended last evening. It does not seem to lose any of its interest by repetition. We have observed on some persons attending every evening, and their fondness away from each successive exhibition with renewed pleasure and delight. The first exhibition was admirably performed, but last evening parts and misses have attained to greater confidence, and there is no terror produced in the mind by the tear of a "break down." Miss Hager's performance of the Allegory still one of the great attractions of the entertainment. This will positively be the last evening of the Allegory and Tableaux, and we would advise all who have not seen it to attend themselves of this last opportunity. Children and schools will be admitted at half price. All other tickets fifty cents each. We have been requested to state that there will be no rehearsal this evening. Those who go to the Hall first will have the choice of seats.

Policemen Arrested. Officers John Sumper and John Tharing arrested on Monday and brought before Mayor McCarthy, upon a charge of assault and battery preferred by John Wiseman. The prosecutor states that while he was looking in the window of Charlotte Blume's music store, the officers laid hands upon and took him away. Messrs. Sarber and Thornburg, as our readers are aware, are engaged in a controversy with the merchants of Fifth street and vicinity to keep the pavements clear of loungers and thus prevent an obstruction to the business of the street. The prosecutor says he was not blocking up the pavement and had been ordered to move off by these officers, which he refused to do, when he was taken by the officers to the station house. Mayor McCarthy then brought suit as above. Messrs. Sarber and Thornburg waived a hearing, and gave bail to answer the charge.

Local Beauties.—Messrs. Arthurs & Riddell, a firm which has had a most extensive experience in procuring bounties from the General Government in our midst, announces to-day their readiness to undertake the collection of the local bounty of $300, which, by a late act of Assembly, is made payable to the persons who enlisted between June 1, 1863, and April 1, 1864, by the city, county, ward, borough or township to which they were credited on re-enlistment. These gentlemen have had infinity more difficult cases to manage heretofore, and are in every way deserving of confidence.

PUBLIC MEETING IN ALLEGHENY.

We understand that a call is in circulation for a mass meeting in the Market Square, Allegheny, on to-morrow (Thursday) evening, to "ratify the nomination of GEARY and take such action as may be deemed proper regarding removal from office for opinion's sake," and we trust the meeting will be a large and effective one. If the people of Allegheny do not want to be ground under the heels of Presidential tyranny, let them say so with that emphasis which they so well know how to give.

THE FENIAN BUBBLE.

In the aggregate a vast sum of money has been collected by the leaders of the Fenian agitation. Most of it has been drawn by specious appeals from ignorant and excitable men and women, having scant resources beyond their several physical industries, and needing all the wages they could earn for the comfortable subsistence of themselves and families. The agitators, through a long series of months, have had a good time. They have indulged in the luxury of elegant quarters, appetizing food and drinks, and superfine clothing.

Exasperated feeling on the part of a large majority of the native population towards Great Britain for her course during the rebellion, contributed to the facility with which the swindling was conducted. The movement gave at least a promise of annoyance, if not of retribution, and that was sufficient to ensure it a sort of impunity and encouragement. Great Britain had acted so badly towards us that it was thought to be a justifiable retaliation to allow a raid upon Ireland or upon some of her Provinces to be engineered from this country. So the affair went on.

While the leaders enjoyed themselves at the expense of their dupes, they put off, under a variety of pretexts, the time for action, until it could be put off no longer. It became necessary to slink away and hide in obscurity from a crushing weight of indignation and contempt, or else to make a show of setting on foot a military expedition under the Green Flag.

We have heard Fenian orators declaim in characteristic bombast about their contemplated raid across the border, and the prodigies of valor they would enact under strong inspiration derived from a sight of the bloody flag of St. George. The eloquence was good of its sort, and must have been palatable to men who could make, when hungry, a satisfactory dinner of whipped syllabub or floating island. But there is a terrible falling off in performance now that the day of trial has come. Here is an invasion attempted with such paucity of numbers and deficiency of appliances as not to produce even a respectable fright on the border. A more absurd and criminal movement than this upon the province of New Brunswick so far seems to be, has not been inaugurated for a century. If this is the utmost the leaders can do, after all their vaunting of a million men ready to take the field at one blast of their bugle, it is time they left the stage. Awhile ago they proclaimed that it was not *men* but *money* they wanted. There must have been a tone of irony in the voice, not detected at the moment, but is palpable enough now to the apprehension of every one. The leaders *want money*. Who remains sufficiently a dupe to furnish it?

IMPOSITION OF TAXES.

The Philadelphia Board of Trade have sent a memorial to Congress suggesting a revision in the principles upon which the excise duties are levied. The evil the Board design to remedy is the repetition of taxes on the same article in the various stages of production. To gain this point Congress is recommended to tax industrial products in this manner.

First—To levy an *ad valorem* tax upon all products of industry, (except the special articles and food in the hands of original producers,) of a uniform per centage, upon the value when sold to the final consumer, as indicated by the gross sales thereof, whether for cash or credit.

Second—That the same percentage be levied upon each progressive producer upon his gross sales, deducting the amount of tax which shall have accrued in previous stages of manufacture, as indicated by his purchases of excisable articles, (not food in first hands, or special articles,) to the end that each producer shall pay his share of the aggregate taxes, being the amount due upon the increased value which he may have added thereto.

Third—That no tax be levied upon any product until the same shall have been sold.

JOHN A. M'CLERLAND was a democratic member of Congress from Illinois. He inclined to the school of STEPHEN A. DOUGLAS. When the war broke out he took the side of the government. He entered the army and became a Major General. Serving under General GRANT he was guilty of disobedience of orders and sent home. For awhile he subsided. Recently he has been heard from. The occasion was one of advice giving to the "disfranchised States." This is a specimen of his talk.

"What should the disfranchised States do? As an humble individual, revering the Constitution and respecting the rights of all, I say let these States elect their Senators and Representatives to Congress; let these Senators and Representatives repair to Washington and take their entitled seats in those bodies, peaceably, if they can, forcibly, if they must, and let the consequences take care of themselves."

REPORTS are in circulation, here and at Washington, to the effect that Mr. DAVID N. WHITE holds "intimate relations" with this journal, that he has written articles for our columns, going "to prove both President JOHNSON and Senator COWAN unmitigated rogues and traitors." Now, what are the facts? Mr. WHITE, to the best of our knowledge and belief, has not been inside the GAZETTE office for a full year, and except a notice of a matter strictly local to Sewickley, where he lives, has not written an article for these columns, on any subject, during all that period. If men have certified to the contrary at Washington, as is rumored, they have put their names to deliberate falsehoods.

ALL the volunteers remaining in service, sixty thousand in number, are to be mustered out without delay.

THE latest radical outrage at Washington is the removal of the whisky shops from the Capitol.

THE *Commercial*, in announcing the appointment of ex Gov. JOHNSTON as Collector of the Twenty-third district, takes occasion to endorse the act. It gives the approval to JOHNSON as well as to JOHNSTON.

It is to be hoped that that erratic concern will now stay fixed, and allow itself to be known as the JOHNSON as well as the JOHNSTON organ. Hitherto it has been drifting about like a vessel without a rudder, being for the President on one day and against him on the next, and sometimes for him and against on the same day. If we can only succeed in getting it decidedly committed for three days in succession to the President's policy, we shall feel some pride in the accomplishment of such a feat. Will the *Commercial*, if only to oblige us, stand by the President firmly and abide the issue?

The fault of Mr. WHITE, the present Collector of the 23d district, is not so much that he is a Radical as that he was, at a remote period, connected with the *Gazette*. True, he has had no connection with it for the past ten years, except for a short season, has not written a line for it since his appointment to his present office, and has not been in our office a half dozen times within that period; but all that is nothing: he was, once, Editor of the *Gazette*, and that is enough. Off with his head!

We understand that this appointment of Gov. JOHNSTON was made at the instigation of some mythical association called the "Allegheny County Johnson Club," and that the President was humbugged into the belief that this visionary concern numbers 3,000 of the Republicans of this County! We have very serious doubts whether there is any such Club in actual existence; but if there is, we are certain that it does not contain 3,000, nor 300, nor even 30 members. If it did, its managers would be able to find a decent Republican for the Allegheny Postoffice, instead of being driven, as they have been, to put forward a Copperhead for that place. The attempt to palm off upon the President the existence of such a club, here, as an actual fact, is one of the scaliest tricks of modern politics.

We repeat what we have said before, that this appointment of JOHNSON is put forward as a mere feeler, to test the temper of the public, and the 23d district has been chosen for the experiment because the political renegades engaged in it think it can be made there with more safety than elsewhere. It remains to be seen whether the sturdy Republicans of that district will submit to such an insult as the appointment of a person for Collector who, in his speech to the late Johnson meeting at Washington, cited the fact that he was the author of the pro-slavery platform of the Whig National Convention of 1852, as evidence that he had always been the friend of the South!

For the Pittsburgh Gazette.

The 23d District Collectorship.

Messrs. Editors:—"Brigham"—not the Don Juan of Utah, but the less renowned "Brigham" of the Pittsburgh *Commercial*, announces in his paper of yesterday, that D. N. White, Esq., Collector of Internal Revenue for the 23d District, has been decapitated by the President, and that Gov. Johnston is to succeed him. We are furth er advised from the same source that the President is moved to this act of retributive justice by a deep sense of devotion to the *principles* of the party which elected him!

Now, whether White, Johnston, or any other man is Collector of Internal Revenue, is *per se* a very insignificant matter. Mr. White will, we doubt not, survive the deep damnation of his taking off, while his Excellency Gov. Johnston may at the same time be able to recuperate his dilapidated personal and political fortunes. But, let us have no nonsense or flapdoodle, such as Brigham furnishes forth to his readers as to the causes of this and other changes among our Federal office holders. The truth is, something had to be done to appease the clamors of the followers of the new Presidential faith as well as to prevent a general holocaust. For a time it looked as if a clean sweep would be made, but this has been judiciously averted by the vicarious sacrifice of Mr. White.

"Unhappy WHITE!
The spoiler came; and all thy promise fair
Has sought the grave to sleep forever there.
* * * * * * *
Keen were his pangs, but keener far to feel,
He nursed the pinion which impelled the steel;"

He suffers not only for his colleagues in office, but is specially marked for Presidential vengeance, from his life-long adherence to those Republican ideas which are now scouted at as radical by his Excellency, and statesmen of the Cowan-Johnson school. Indeed, his old-time connection with the *Gazette* is also thought to have precipitated his untimely fate. It is understood that the balance of the office-holders hereabouts may be retained if they manifest their faith by their works, and don't vote for Geary, nor send a radical delegation to the next Legislature to oust Mr. Cowan.

Execution having been done on the unfortunate and guiltless White, and his body handed over for dissection, we shall now hear much of the party going to pieces; of disgust with leading and faithful statesmen; and of the necessity of doing "something" to propitiate the President, lest he should be driven to the Copperheads," &c., &c. In my opinion he wouldn't have far to go, but in the meantime it behooves us to watch these schemers who are plotting for the overthrow of the party of Freedom and Humanity. R.

PERSONAL ITEMS.

MR. and Mrs. David Barlow, of West Brookfield, Mass., celebrated their golden wedding on the 2d instant. They have spent all their married life in the house where Mrs. Barlow was born and married. They have had six children, all of whom are living, and all but one were present.

A BERLIN correspondent of the Boston *Traveller* comments upon the senile profligacy of the old King of Prussia, who, at the age of sixty-eight years, still frequents the green rooms of low theatres, and finds his boon companions among loose ballet girls.

ROGER A. PRYOR, late a general in the Confederate service, as many of our readers know, has resided in New York since the close of the war, and followed the practice of his profession—the law. In this he has been very successful.

HARRY T. HAYS, who commanded a brigade in the army under Stonewall Jackson, has been nominated for the Sheriff of New Orleans. The democracy will support him.

JOHN MORRISEY, the pugilist, it is said, will be the democratic nominee for Congress in the New York district, now represented by Gen. Nelson Taylor.

GEN. CLEMENT EVANS, late of the Confederate army, has become pastor of the Episcopal church, south, in Barlow county, Ky.

GEN. FRANK BLAIR has rented a large cotton plantation near Vicksburg, intending to work it with two hundred freedmen.

MAJ. GEN. SLOCUM has decided to remove from Syracuse and take up his residence in New York.

THE Mobile papers propose to nominate Admiral Semmes as a candidate for Probate Judge.

THE Omaha *Republican*, of the 9th, has some rather exciting news from Utah. It learns "that the greatest excitement prevails among the Mormons, and a fixed determination on their part to drive out or exterminate all Gentiles. Eight men have recently been assassinated, while the editor of the *Vedette*, with all other Gentiles, has been notified to quit the country, *or face worse*. Placards are posted up in Salt Lake City, warning all Gentiles to leave immediately. We predict exciting news from Mormondom, and apprehend that the military will find, ere long, that the seat of war has been transferred from the South to the Land of the Prophets."

GENERAL INTELLIGENCE.

RECENT LETTERS from Texas state that the Convention has provided in the Constitution that no part of the school fund, or of the university fund, shall ever be applied to the education of any but white children; nor shall any tax collected for school purposes be applied to the education of blacks, except such as may be collected from the blacks themselves. The Convention also adopted a provision requiring a residence of five years in the State as a qualification for a seat in the Legislature.

IN Perryville, Ky., a few days since, an old woman named Polly Bottom, was murdered, and a man named Bill Taylor was accused by a little girl as the perpetrator of the crime. Taylor and his father were arrested and taken to Perryville, but the people would not wait for the course of justice, and took away the younger Taylor from the officers and hanged him. The father was spared, as doubt existed in regard to his complicity in the murder.

THE Mississippi, during the high water now prevailing, is reported to have broken through Terrapin Bend, near Vicksburg, which Gen. Williams was-ted much labor in attempting to cut through without success. Gen. Grant made a still more earnest effort, which was also a failure. And now the Mississippi has shown herself superior to them both. This cut shortens the river fifteen miles, and will leave Eagle Bend a lake fourteen miles long.

THE oil well at Ballston, New York, has been bored to the depth of five hundred and eighty feet. Two mineral springs have been struck, plenty of gas, and lastly a sort of black substance, soft and oily, which is supposed to mean oil. The stockholders of the concern are so much encouraged by signs and indications that they have resolved to tube the well and pump for petroleum.

EMINENT PATRIOTS, like Governor Hamilton of Texas, Governor Holden of North Carolina, Governor Brownlow of Tennessee, Governor Pierpoint of Virginia, boldly declare the President's Policy to be a failure, and the testimony of impartial and non political witnesses, like Generals Geo. H Thomas, Custer, Grierson, Saxton, Sheridan, Canby, Curtis, confirm the verdict.

LAST Monday some unknown scoundrel stole the child of Mr Vogel, leader of the band at the St. Louis Varieties, and carrying it over into the Illinois bottom, buried it with mud and leaves. The boy was only three years old, and was fortunately discovered the same evening through the sagacity of a hunter's dog, and returned to his parents.

A New York Politician.

Mr. Brooks of New York has just been unseated because of the illegality of the election proceedings and returns in "Mackerelville," which is a well known quarter in New York. Among other witnesses the contestant, Mr. Dodge, put on the stand a man named Geohegan, who was one of Mr. Brooks' most efficient supporters at the polls as will be seen. The man said he had long lived in the district and had "been implicated in the election every year."

Question.—Do you always take a great interest in the election?

Answer.—I do.

Q.—Attend the polls all day?

A.—I do. I wouldn't take time to eat my meals, for fear I would lose the voting.

Q.—Did you have a list of those voters who were dead and who were away?

A.—I knew them to be dead; but we substitute a man to vote their names, and keep them on. We've got to do that, you know, to help a friend.

Q.—This time did you render this efficient aid to Mr. Dodge, Mr. Barr, or Mr. Brooks?

A.—I done it for Mr. Brooks.

Q.—Are you feelingly confident that you got these thirty votes for him that you say voted Mr. Brooks' ticket?

A.—I am sure of it

Q.—Do I understand you to say that you gave tickets to men to vote whom you knew were illegal voters in that district?

A.—I did, sir.

Q.—And that you took these men in and had them deposit their votes?

A.—Yes, sir, I always do that.

Q.—I understand you also to say that you gave tickets to men who were representing dead voters?

A.—Yes, sir.

Q.—And that you induced them to deposit their votes?

A.—Yes, sir, I done so, and always does that.

Q.—And you knew in doing that, and you know now, you were guilty of a felony?

A.—Generally we takes that as a risk. The counsel pressed him a little harder as to his history

Q.—How many times have you been arrested?

A.—Well, about, I guess, three times in my life; but then never kept ing only the one time—just appeared, that's all.

Q.—Were you ever arrested at the complaint of John Mahon?

A.—Yes.

Q.—What was that for?

A.—For shooting.

Q.—Were you ever arrested at the complaint of a man named Jagger?

A.—I was, but I wasn't retained.

Q.—What was the charge against you?

A.—Assault and battery.

Q.—Did you count this in the arrests that you mentioned?

A.—No, sir, I don't call it an arrest when a man appears merely and is discharged.

Q.—How many other criminal complaints have you had made against you?

A.—None that I know of.

Further examination showed that the man after coming to this country had lived in several of the southern cities, had then died and been at work on plantations, but did finally become the prosperous proprietor of two stores grocery shops in Mackerelville.

Q.—How many fights do you suppose you have been in in the course of your life?

A.—A great many. In the course of the election I'm in the whole time fighting generally; I fight with my nails election day.

Q.—How many times did you vote at the election?

A.—Only once; I was too well known.

Q.—How many persons did you induce to vote illegally?

A.—I guess in the neighborhood of twenty or thirty.

Q.—How many do you generally induce to vote illegally?

A.—All that I ever can get. I wouldn't give you any regular statement, for everybody I can get to vote I make them vote. It's a business I practice.

Q.—As a general thing at elections, how many do you put in?

A.—I don't keep any memorandum of it.

TRAITORS MUST BE PUNISHED AND TREASON MADE ODIOUS.—The way Mr. Johnson's dictum is being carried out in Memphis is really curious. Almost every dry goods store, book-store and hair-room in the city is turned into a picture-gallery for the display of pictures of rebel generals. At all the ladies fairs these are the principal articles raffled for. At last, to cap the climax, and show the utter odium with which this loyal community views traitors and treason, a store has been opened entirely devoted to the sale of photographs of rebel generals and traitors of every grade, and agents are canvassing the city in all directions, selling pictures of Davis, Lee, Beauregard and others of the stripe. The liveliest business going, in these dull times, is the sale of rebel books and pictures and subscribing to the Lee edowment fund.—*Memphis Post.*

SPECIAL NOTICES.

AYER'S PILLS—Are you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the pulse beat with unobstructed health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. The benefit is true and apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative power in these cures. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE.

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers*, indeed, *for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Every trial proves anew its value as a remedy for the cure of the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the chills without leaving them liable to return. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Those who live where Ague and Fever prevail, or who visit such localities, may rely upon it that it will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the best Liver Pill we can make, and for Dyspepsia and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Mandelian" is known it is pronounced the *sine plus ultra* of Hair Preparations. Remember, it is free from all those injurious poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

TUESDAY, April 17, 1866.

Gold has undergone but little change since yesterday, fluctuating between 125@125¼. The produce market has been more active for two or three past, and some articles, especially Flour, is somewhat excited, and considerably higher. Generally speaking, the markets are very active at this period of the year, and there is every reason why there should be no exception to the rule this time. The loan bill that has so long hung fire in Congress, preventing business enterprises because of the uncertainty as to how it would be disposed of, has become a law; money is plenty and obtainable at low rates of interest; confidence in the future has been very largely established; generally business is brightening, and altogether there is every inducement at hand that speculators in stocks and merchandise desire when they seek to create a stir on the stock exchange. With this buoyant feeling predominant, it is quite natural that there should be a general belief that prices, at least for the immediate future, will tend upwards. Government bonds continue to move upward, though they are the least of all stocks effected by the ordinary causes which produce fluctuation in prices.

—Sale of Stocks and Bonds, on Tuesday evening, April 17th, at the Commercial Sales Rooms, by Smithfield street, by A. McIlwaine, auctioneer.

Fourth National Bank	107 50
Bank of Pittsburgh	69 50

—In all the markets of the country (says the Cincinnati *Gazette*) trade in the general market is more active, and gloomy forebodings in regard to the future are giving place to confidence. Merchants are now of the impression that there is to be a general reaction from the extreme point of depression, and are consequently operating more freely. The advance in breadstuff-s results chiefly from the unfavorable reports of the growing crops. The latter are certainly gloomy; but it must be borne in mind that the appearance of fields, after an unfavorable winter, have often proved deceptive on the opening of Spring. And now, although in the middle of April, we are, in this section, experiencing the finest growing weather. It will be safe, therefore, to await a couple of weeks of favorable weather before making up a decision in regard to the wheat crop. That the latter has been very seriously injured is not to be doubted; but it is not yet an established fact that three fourths or one half of it has been destroyed.

—The import entries at New York for the past week, amount to $5,700,000, against the total entries of $6,115,229 same week last year. The export clearances of domestic produce amount to $6,009,510, against $1,653,353 same week last year. The export of specie amounts to $122,628, against $87,000 same week last year. The customs for the week are $2,856,048. The receipts of cotton, reported to Bowles Bros., are 11,963 bales. The number of emigrant passengers arrived during the week, 7,950.

—There is little less activity in dry goods, and generally a lower tone as to prices. A large part of this is undoubtedly due to the popular apprehensions of a dull, sickly summer, with visions of accumulating goods, shaking credit, and a general migration from the large cities. Already there is a very active movement to secure places of summer resort, and this is associated in most minds with a long period of depression in trade, and a consequent panic in prices. It generally turns out that bag-bears are discounted in advance, and we have seldom known of a rise or fall which realized the vision before the popular mind. The very fact that so many are anticipating a long interval of dreary dullness may be one prominent reason why it will not occur, precisely as a general promise of a large advance is always in the way of its own fulfilment.—*Phila. Ledger.*

—The New York *Tribune*, of Monday, says the foreign advices in regard to Government stocks have become of importance as affecting the money market and merchants, in connection with the negotiations of the Treasurer. At 70 in gold, with the premium on the latter at 26, the price in New York is 4 per cent above the London quotations, a difference which will attract bonds enough home for resale to keep quotations from advancing here. A return of bonds sufficient to depress 5-20s materially would disturb National Banks, which are expanded unduly, and not in a position to protect their circulation.

—The *Times*, of the same day says the compound Treasury paper is being bought up at once for the full interest, accumulating at 6 per cents of 1864 and 1865, and the Seven Thirty per cents sold on Saturday as high as 101 per cent and interest. These advancing rates, the result of a cheap money market, will probably soon induce a material advance in the Five Twenty gold bearing stocks into which the Seven Thirties are converted at the option. They are already scarce in the market, notwithstanding some talk through the week of a considerable return of the less issue from Europe.

—The following extract from a letter dated New Orleans, April 3, 1866, is of interest: "I am sorry to advise you that protests are becoming very common, and merchants here appear to treat very little notice of them, and look upon them rather as a matter of course than otherwise. Business is very dull here in all the branches, and promises a hard season if such is the case, there will be much shaving about, and it is feared Norther creditors will be the sufferers."

STOCKS AND MONEY.

Gold was unfinated at the close, at 126. Money abundant. At the last Board, the railway list was active and higher on Erie and Pittsburgh, while Rock Island was 2½ per cent off from the highest point to-day. The balance of the list was steady. The Miscellaneous shares have been quite irregular to-day, and the fluctuations have been wide. Quicksilver fell from 56@51¾. Petroleum shares were quiet at the afternoon session, but a few transactions took place at steady prices. Gold shares were in moderate demand, and higher in some cases. Crown Point, 95; Imperial, 90; Buchanan, 35; Pithole Creek, 26. Mining Stocks—Gunnel, 10c; Kipp & Buell, 23c; Montana, 140; Quartz Hill, 47c.

The *Commercial* says the stock market exhibits rather more animation, with a general improvement in prices. The railroad list is decidedly firm, but without any important speculative activity. Governments are strong, but rather less active. About a million and a half dollars of old 5-20s were returned by the two last steamers, but the price has strengthened notwithstanding. Ten Forties sold at 92¾. 7-30s are firm, but less active at yesterday's figures. State stocks are dull and prices steady. Money continues very abundant, owing, principally, to the large receipts of currence from the interior, and also to the moderate demand for loans. Demand loans are generally made at 5 per cent, outstanding 6 per cent, loans having been mostly paid in and received at the lower rate. Discounts are moderately active. There is a good brisk demand for prime paper, which is scarce. Foreign exchange shows a slight reaction from the firmness of yesterday. Some of the leading drawers ask 108 for sixty days sterling, while others offer their bills at 107¾, which is above the views of most buyers. Francs are quoted at 5.27½@5.25, for long sale. Frankfurts bills range at 105¾@107. Gold is in active demand from importers, at the same time the borrowing demand from the shorts is quite active, at 1-16th per cent per day, being generally paid on loans. The short operations are not disposed to cover their contracts at the present price, being sanguine that as the payment of the May interest approaches the premium must yield.

DRY GOODS MARKET.

This Dry Goods Market to-day is very quiet. Imported goods will go lower, as holders are ready to take and consider offers. Prints—Allen, 18; Americans, 18½; Amoskeag, 17; Arnolds, 16; Cochico, 21; Bunnell, 18; Freeman, 15; Garner & Co., 20; Hamilton, 19; London Mourning, 16½; Lancaster, 18; Merrimac W, 22; do D, 21; Pacific, 19; Richmond, 19; Sprague's Frocks, 21; do. Fancy, 20; Victory, 16; Wamsutta, 22½; Dennins—Haymaker, 20; Manchester, 21½; Massachusetts, 35; New York, 16; Pearl River, 20. Cottonades—Palmer and Mechanics, 55; New York Mills, 65; Plow, Loom and Anvil, 50; Richmond, 50. Corsets—Thompson's French Woven B B, $12@13, gold; Thompson C I, Impersatern, $30 currency. Brown Sheetings—Atlantic A, 28; do. 22; Dwight A, 21; Boot H, 17; Boot O, 21; Boott, 24. New York Cattle Market.

NEW YORK, April 16.—The following is the current price at all the markets: Beef cattle, first quality per head, at $174@18; fair to good, at 16@17; common, at 14@15.50; inferior, at 12@15.50. Cows and calves, extra per head, at 90@100; first quality, at $80@90; ordinary, $65@75; common, $50@60; inferior, $30@50. Veal Calves first per pound, 14@12c; ordinary, 10@11c; common, 9@10c; inferior, 8@9c. Sheep and lambs extra per head, at $9@10; prime quality, $7@8; ordinary, $5.50@6.50; common, $4@5.50; inferior, $3.50@4.50. Prime heavy corn fed per pound, at 10@10½c; light and medium, 10@10½c still fed, 10@10½c.

The supply of Beef Cattle altogether, were liberal this week and the improved movement inaugurated last week was accordingly checked. The large number of butchers who were unable to obtain a supply last week prevented any decline of moment, while prime cattle which are scarce, commande full if not higher prices. All the cattle were sold.

Sheep and Lambs were fairly active, and prices higher. Hogs dull but without decided change.

The total receipts of all the stock at all the yards for this week, were as follows: Total, 3,423 beeves, 97 cows, 3,360 veal calves, 15,225 sheep and lambs, and 10,405 swine.

Philadelphia Market.

PHILADELPHIA, April 17.—Petroleum dull. Sales crude at 34; refined, free, at 58@62c. Cotton depressed and unsettled. Very little good wheat in market. Sales at $2.40@2.60. Corn scarce. Oats steady. Coffee quiet. Provisions dull. Sales of whisky at 2.25@2.35. Stocks firm. Tennessee 8s, 87; Reading, 52¾; Pennsylvania, 56; American gold, 125; Sight Exchange on New York at par.

Baltimore Market.

BALTIMORE, April 17.—Flour: active. High grades firm. Wheat scarce and tending upward. Corn firmer and active at 80c for White and 86c for Yello c. Oats firm at 60@65c. Provisions steady. Sugar dull. Coffee firm. Whiskey—Western $2.20.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 17, 1866.

The produce markets were moderately active to-day, but as the demand is almost entirely local, we have but few round lot operations to record. In values there have been some slight fluctuations, none, however, worthy of special notice.

GRAIN—Wheat, especially prime grades, is firm and in better demand. Oats still quoted steady at 44@50, on track, and 55@55 for small lots from store. Sale of 1200 bush Barley, half spring and half Winter at $1—an advance. Corn is scarce and higher; sale of 200 bushels shelled at 70. Rye is quoted at 75@75.

FLOUR—There is a continued good local demand for Flour, and the market is firm and somewhat excited, with an upward tendency. We can report sales from store at $8.75@9 for good to choice brands of Spring Wheat; $10 for half Spring and half Winter, and $10.50@11 for Winter Wheat, the latter figure for choice brands.

PROVISIONS—Bacon is quiet but steady, with a fair jobbing demand at 13 for Shoulders; 15 for Ribbed Sides, and 20½@21 for Sugar Cured Hams. Sales of country Lard at 17, and prime kettle do is held at 18@18½. No demand whatever for Mess Pork.

POTATOES—The arrivals continue large, under the influence of which the market is a little weak. Sales from store at $1.20 to $1.35 per bushel, and $5.75 per bbl. We hear of offers to sell for future delivery at a decline.

SEEDS—Flaxseed is in demand and scarce at $2½. Clover seed is quiet—small sales at 8½. Timothy Seed is scarce and firm at $4@4.25.

BUTTER—Is coming in more freely, and the market is a little dull, with a drooping tendency. Sales of prime to choice Roll at 45@50—mostly at 46@48.

EGGS—In fair demand, and the supply is improving—sales at 24@25—mostly at 25.

HAY—Continues scarce and firm, and prices are well maintained, ranging from $30 to $35 per ton, as to quality.

ONIONS—Quiet but steady, with small sales of prime at $4 per bush.

OIL—No. 1 Lard is still held at $1.70.

DRIED FRUIT—Apples steady at 13 to 13. Peaches—sales of quarters at 16@17, and halves at 20@22. Stock light.

SALT—Is dull but nominally unchanged—it is held at $2½ per bbl, on track, and the usual advance from store.

SORGHUM—Is dull but unchanged; small sales at 65@70.

BEANS—Dull and a shade lower, as prime White cannot be quoted above $1.75 per bush for small lots.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE TUESDAY, April 17, 1866.

CRUDE—The slight swell in the Allegheny River, which will doubtless decrease the arrivals within the next few days, had a tendency to weaken the market a little to-day, and some holders in order to effect sales made slight concessions. For future delivery, there is still some considerable inquiry, but buyers generally, are unwilling to pay the figures asked, and they entertain hopes that by holding off they can force the Crude men to terms. Sales of 1,000 bbls, 30 days, and 2,000 bbls included, may be considered the ruling quotations, while for June and July deliveries an advance of from one to one and a half cents per gallon could be realized. Sales of 500 bbls, 1,000 bbls, 2,000 bbls, in bulk, to arrive, at 13; and 700 do do, to arrive, at 13. We are without Oil City advices to-day, but the market here is not influenced thereby, and the change since yesterday, when Crude was held pretty firmly at 34.25 per barrel.

REFINED—The demand for bonded oil continues quite limited, and, while the market is quiet and apparently a little dull, prices have undergone no quotable change, though there is no disguising the fact that the tendency is towards lower figures. Sales of 500 bbls for July delivery, at 36c, free on board cars, here; and 500 bbls for August delivery in Philadelphia, buyer's option, at 37c. For immediate delivery, there is not much inquiry, and 36c delivered in Philadelphia, seems to be about the best figure that can be realized at present. Free Oil is dull, and prices are nominally unchanged—demand for the latter principally to supply the immediate wants of the local trade.

ARRIVALS—The arrivals of oil by the Allegheny river, since our last report, were as follows:

Woolridge Ref. Co.	600	Jas. Wilkins	75
Fisher & Bro.	1002	J. F. Strickler	277
Irey & Hutchison	300	Jas. Gallagher	327
W. Hulings	54

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, April 17, 1866.

CATTLE—The supply of cattle at the Allegheny Yards was rather larger this week than for several weeks past, reaching in the aggrigate about one thousand head, the great proportion of which were from Chicago. With a fair demand, however, both for home consumption and shipment, the market ruled steady, and, notwithstanding the increased supply, prices are pretty well sustained, quotations for prime fat retailing cattle selling at from 6 to 8 cents, gross. As has been the case for several weeks past, the large majority of the cattle in sale were of a very fair quality and in good condition—well adapted for the local trade, being selected specially for that purpose in the west, and holders found but little difficulty in disposing their droves at remunerated prices. As will be seen by reference to the sales below annexed, Barney Grey bought one hundred and thirty-five head of prime weight cattle at 8 cents, and a few choice head were sold at 8½c. The bulk of the sales were made at from 6 to 8 cents, gross, for fair to good, and 4@5½c per lb for common, as to quality.

Shee—Continue in fair demand, 7000 head arrived and sold at from 7@8c per lb, gross, as to quality.

Hogs—Prices are unchanged; about 1700 head arrived and sold at the different yards at from $13@14.50 the 100 lbs net.

BOATS LEAVING TO-DAY.

Kate Robinson	Robinson ..... Missouri River
Importer	Noss ..... St. Louis.

RIVER, WEATHER, ETC.

The river rose about four inches during Monday night and yesterday, but last evening it was about at a stand, with seven feet three or four inches in the channel by the Allegheny marks. Telegrams from Oil City early in the day reported thirty-five inches, and falling slowly. The weather was clear, cool and pleasant, and all that could possibly be desired for the transaction of out-door business.

There has not been a single transient arrival since our last report, and, in fact, there was none with the exception of the Parkersburg packet, Last Leott. The Nora, from Cincinnati, will be due here to-night, and will doubtless be found in port to-morrow morning.

The Emma Graham cleared for Zanesville last evening, with a fair freight list, and quite a number of passengers. The Last Leott left on time for Parkersburg. The Ida Rees No. 2 Echo, and Reclaire left for Oil City during the afternoon and evening, with very fair trips, though their freight consisted principally of oil barrels.

Of the ten lives lost by the burning of the ill-fated steamer Financier, but four bodies have thus far been recovered. The funeral of Capt. Darrah's wife and daughter, which took place on Monday, was largely attended.

The Nile, Capt. Haslett's new Missouri River steamer, came up to the wharf yesterday, and is now loading for the "Big Muddy," with the expectation of getting out very soon.

The Importer, Capt. Noss, did not get off for St. Louis as expected last evening, but she will positively leave to-day. The Importer, is a new boat, has excellent accommodations for passengers, and is in charge of careful and experienced officers.

The neat and reliable Kate Robinson, Capt. Robt. Robinson, with Mr. John Wherry in the office, will take her departure this evening for Missouri River, and passengers and shippers should bear this fact in mind.

The staunch and reliable Glasgow, in command of that popular steamboatman, Captain Geo. W. Johnston, is filling up steadily for Cincinnati and Louisville, and will be ready to cut loose to-morrow evening.

The Delaware, Capt R. W. Harton, will be the first boat out for the Upper Mississippi.

Capt. J. D. Foster arrived from St. Louis yesterday by rail. He has sold the Miner to the Northwestern Fur Company for $20,000, and she is now loading at St. Louis for the mountains.

The Shamrock left St. Louis on saturday last for Pittsburgh.

Ice closed the Mississippi at St. Paul four months. It broke up finally at 4 o'clock p. m of the 7th inst. Universal activity prevailed on the levee—the owners of the steamers and barges moored at that point taking the necessary precautions to save their property against the impending crash. The steamers Lippencs, Falls, and Mollie Miller, which hauled up close to the levee, as were also the wharfboat and barges, and firmly secured by mammoth cables and chains.

Boats are now running between Red Wing, at the head of Lake Pepin, and St. Paul. Boats from St. Louis reach Reed's Landing, foot of the lake, which body of ice and water is all the bar that separates St. Louis and St. Paul. The river is high. It might be called "booming."

The St. Louis *Republican*, of Monday says: Col. A. H. Markland, one of the mail agents, is on a trip to reorganize the postal services in the Mississippi Valley. The contract with the Atlantic and Mississippi Steamship Company calls for services of the mail at Orient landings, between Cairo and New Orleans. More are needed, also more pay. Markland is empowered to make new contracts to divide the service from point to point on the river where it can be done advantageously, and to appoint loyal men who will act in post offices as if appointed from the Department. Postmaster-General Dennison will determine upon the liberal postal arrangements in the Southern Mississippi Valley as speedily as possible.
